24) Write the program to demonstrate command line argument.

```csharp
using System;
using System.Collections.Generic;
using System.Linq;
using System.Text;

namespace Ass24
{
    class demo
    {
        void show()
        {
            Console.WriteLine("First Name is " + args[0]);
            Console.WriteLine("Last Name is " + args[1]);
        }
    }
    class Program
    {
        static void Main(string[] args)
        {
            demo d = new demo();
            Console.ReadLine();

        }
    }
}
```
