14) Write a program to show use of Copy constructor.

```csharp
using System;
using System.Collections.Generic;
using System.Linq;
using System.Text;

namespace Ass14
{
    class demo
    {
        int a, b, sum;
        public demo(int x, int y)
        {
            a = x;
            b = y;
        }
        public demo(demo d)
        {
            a=d.a;
            b = d.b;
            sum=a+b;
            Console.Write("add is="+sum);
        }
    }
    class program
    {
        static void Main(string[] args)
        {
            demo d = new demo(10, 20);
            demo d1 = new demo(d);
            Console.ReadLine();
        }
    }
}
```
